

Nitesh Thapa

Date of birth: 19/12/2002 | **Nationality:** Nepalese | **Gender:** Male | **Phone number:** (+977) 9866115219 (Mobile) |
Email address: niteshthapa824@gmail.com | **Website:** <https://niteshthapa123.com.np/> | **LinkedIn:** [Nitesh Thapa](#) |
Whatsapp Messenger: 9866115219 | **Address:** Bharatpur-10, Chitwan, 44200, Bharatpur, Nepal (Home)

ABOUT ME

Motivated tech person exploring various sectors of technological world. Energetic self-starter and team builder who navigates high-stress situations and achieves goals on time.

EDUCATION AND TRAINING

- 04/06/2017 – 04/07/2018 Nepal
SECONDARY EDUCATION EXAMINATION Aroma English Secondary School
- 14/11/2018 – 31/03/2021 Nepal
NATIONAL EXAMINATION BOARD Aroma English Secondary School
- 23/06/2022 – 24/06/2026 Nepal
BACHELOR OF SCIENCE IN COMPUTER SCIENCE AND INFORMATION TECHNOLOGY Lumbini ICT Campus
affiliated to Tribhuvan University

- Core Subjects
 - **Programming:** C, C++, Java, Web Tech, Advanced Java, Dot Net
 - **Systems:** Digital Logic, Computer Architecture, OS, Computer Networks, DBMS, Microprocessor
 - **Theory:** Discrete Structures, DSA, Theory of Computation, Compiler Design
 - **Advanced Tech:** AI, Cryptography, Cloud Computing, Data Mining
 - **Support:** Calculus, Statistics, Physics, Management
- Occupational Skills
 - **Software Engineering:** Full-stack development and testing
 - **Database Administration:** Designing and managing data systems
 - **Network Management:** Infrastructure setup and security
 - **System Analysis:** Business requirement gathering and IT design
 - **Security:** Cryptography and system auditing
 - **Project Management:** Technical documentation and team leadership

WORK EXPERIENCE

- INTERN AS A DATA ENGINEER – DLYTICA NEPAL PVT. LTD.** – 18/11/2025 – 17/02/2026 – KATHMANDU, NEPAL
- During my internship at Dlytica Nepal Pvt. Ltd., I worked as a Data Engineer intern on the development of a Real-Time Payments Data Platform. My responsibilities included generating simulated payment transactions using Python, publishing them to Apache Kafka, and processing real-time streaming data using Apache Spark. I implemented data validation, cleaning, and fraud detection rules such as high-amount checks, transaction velocity monitoring, cross-border detection, and blacklisted merchant identification. I designed and managed Bronze-Silver-Gold data layers, performed deduplication and transformation, and loaded structured data into a PostgreSQL star-schema warehouse. I also developed dbt models with data quality tests, orchestrated reliable hourly and daily workflows using Apache Airflow with error handling and scheduling, generated automated settlement and fraud alert reports, and containerized the entire system using Docker to simulate a production-ready environment.

SKILLS

MS Excel, Powerpoint, PowerBI, Word, PowerApp | Python (computer programming) | Html / CSS / JavaScript | data engineering | Data Collection, Data Cleaning, Data Analysis, Data Visualisations | Data Modelling | C | C++ | Dot Net Programming | Java Programming | MySQL/ PostgreSQL/ MongoDB | django | React/ Node

● **LANGUAGE SKILLS**

Mother tongue(s): **NEPALI**
Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C1	C1	C1	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **HOBBIES AND INTERESTS**

Cycling | Singing | Reading

● **PUBLICATIONS**

2026
[A Major Report on Hospital Management System \(HMS\)](#)

This publication is a Bachelor of Science in Computer Science and Information Technology project report on a Hospital Management System (HMS). It presents the system’s introduction, problem statement, objectives, scope, analysis, design, implementation, testing, results, risks and future recommendations.

2026
[Final Year Internship Report on Real-Time Payments Data Platform at Dlytica Nepal PVT. LTD.](#)

This internship provided valuable practical experience in data engineering at Dlytica Nepal Pvt. Ltd. I developed a real-time payments data platform, implementing end-to-end data streaming, processing, fraud detection and workflow orchestration using tools such as Apache Kafka, Apache Spark, PostgreSQL, dbt and Apache Airflow within a Docker-based environment. The project enhanced my technical and teamwork skills and the final report is published on figshare.

Thapa, Nitesh (2026). Final Year Internship Report on Real-Time Payments Data Platform at Dlytica Nepal PVT.LTD.. figshare. Software. <https://doi.org/10.6084/m9.figshare.32051217.v4>

● **VOLUNTEERING**

- Participated in community clean-up initiatives, including surrounding area and river cleaning programs in the local locality.
- Participated in blood donation programs organized in the local community.
- Participated in awareness programs addressing harmful habits such as smoking and alcohol consumption.
- Assisted community members during natural disasters, including landslides and floods.

● **CONFERENCES AND SEMINARS**

Participated in First Aid Training Session which was held at Aroma English Secondary School

Participated in seminar held for Mastering Lab Accuracy Through Control & Calibration in Diagnostic Laboratories Organized by Tulip Diagnostics (P) Ltd.

Bootcamp participation in Graphic Designing held at Lumbini ICT Campus

Participated in 4 days R programming workshop held by Infography Technologies

● **PROJECTS**

Developed an entire full stack Hospital Management System (HMS)

This project was done in 7th semester of Bachelor of Science in Computer Science and Information Technology in which software was developed by me using django, HTML, CSS, JS, Bootstrap, SQLite and was related to Hospital Management System (HMS). It presents entire system of HMS like patient registration and profile management, doctor management, appointment scheduling, medical records, billing and payment, prescriptions, lab tests, notifications, email integrated, login activity tracking and role-based access control for admin, doctor and patient users, user accounts, groups and permissions, sessions, services and contact/notification handling with chatbot and real time messaging among users using sockets. It was well developed and was advanced which meets entire demand of a health institute.

● **RECOMMENDATIONS**

Pratap Koirala Principal

Principal of Lumbini ICT Campus

Er. Mod Nath Acharya HOD of Csit

HOD of CSIT department of Lumbini ICT Campus
